

## ENERGY CONSULTANT

---

<b>Status:</b>	<b>Full-time</b>
<b>Starting date:</b>	<b>Immediate</b>
<b>Location:</b>	<b>Hexham / Remote</b>

---

### ABOUT US

d3associates is a multidisciplinary architectural and energy consultancy, providing wide-ranging skills and expertise to enable our clients to deliver their low carbon ambitions. We cover a broad client base, operate in both the public and private sectors, and have a strong track record delivering a diverse range of sustainable solutions. We work across the full project life cycle, from initial client engagement, options appraisal to detailed design and commissioning.

Check out our website and social media to find out more. [www.d3-associates.co.uk](http://www.d3-associates.co.uk)

### YOUR NEW ROLE, WHAT'S INVOLVED?

We are looking for a highly motivated individual to join our Energy team to help deliver a diverse range of projects across the UK, someone who is keen to progress and broaden their skills.

This role is based at our office in Hexham, Northumberland although we will consider candidates from further afield to work remotely.

### AS AN ENERGY CONSULTANT AT D3A YOU WILL:

- Work across the energy supply chain to discover the most reliable, cost-effective and environmentally sustainable ways to deliver energy supplies
- Deliver energy audits and decarbonisation studies, drawing on your own knowledge and from those around you, with an emphasis on data, cost and technical feasibility
- Provide concise reports defining energy saving actions, costing solutions and robustly calculating potential savings.
- Prepare project proposals, including requirements, scope, resources, schedule, and costs
- Produce project management documentation, including project management plans, cost estimates and project schedules
- Implement projects focused on reducing energy consumption and carbon emissions.
- Manage and co-ordinate tasks, ensuring outputs meet the project requirements
- Foster and grow excellent relationships with clients, suppliers, and strategic partners

### SKILLS & EXPERIENCE

We'd love to hear from you if you have:

- A strong interest in the sustainable environment
- A client focussed, solution orientated mindset
- An ability to communicate clearly and concisely
- A desire to play an active role within d3associates

**Qualifications:**

Degree in relevant technical discipline or equivalent combination of qualifications and experience

The following would be desirable:

- Membership of appropriate professional institution
- Qualification/certification at professional level
- MSC in Renewable Energy or similar

**SALARY**

We offer a competitive salary, dependent on experience and qualifications.

**OTHER BENEFITS**

We will:

- support your personal and professional development so that you grow with the company
- pay relevant professional subscription fees
- provide a workplace pension scheme
- offer flexible working practices
- provide free onsite parking
- include 28 days annual leave (inclusive of Bank Holidays)
- hold Christmas and Summer social events
- arrange regular lunchtime CPD talks and events

**APPLY NOW TO JOIN THE TEAM**

If you'd like to find out more about us, or discuss the role, please contact Paul Haverson for an informal chat or send your CV with a covering email telling us why you'd be right for this role.
